Subject: Microsoft Settlement

I am writing to let you know that I believe the government should settle with Microsoft as quickly as possible. Microsoft has exercised extreme diligence in preserving the compatibility of its older products while introducing newer products. This has saved consumers countless, countless dollars and headaches. Although Microsoft gains from this through maintaining its customer base, it is such a great service to the public that Microsoft should be rewarded rather than punished. Also, it is BAD for the stock market, the public and the US economy at large to have Microsoft's stock continually take a beating. Microsoft's enemies see that Microsoft is vulnerable and they leap into the fray. Enough is enough! Put a halt to all the attacks and the nonsense. Settle with Microsoft as quickly as possible. Let the country move on!!
